LIBERALS DRIVEN BACK

COLOMBIAN GENERAL DEFEATS
THE INSURGENTS NEAR
PANAMA.

MANY KILLED AND WOUNDED

Between Culebra and Empire Over a
Hundred and Fifty Casualties Are
Counted—Heavy Fighting Now Go-
ing on at San Pablo—Three Hun-
dred Marines Landed to Protect
Railroad Property.

Colon, Colombia, Nov. 26.—At 10 o'clock the schooner Clapet and a railroad barge returned to Panama bringing 350 men from Chorrera, being the remainder of General Alban's expedition. Great crowds gathered at the wharf to witness the landing of the soldiers. They were received with bands of music, but the music sounded mournful and the airs sounded more like a funeral march than the joyful strains of welcome to a victorious army. General Alban looked his usual and calm self and acted more like a man on whose hands time hangs heavily for want of something to do than one coping with grave responsibilities under trying circumstances.

At the head of several hundred men he left Panama by train for Empire Station, where the Liberals were reported to be in fairly strong numbers. His purpose was to surprise and rout them. The train bearing these troops was held up just before it arrived at Culebra Station owing to the Liberals opening fire on Alban's advance guard. Alban disembarked his men from the train, which returned to Panama. The fighting at Culebra lasted for several hours.

The government troops advanced and the fighting was stubborn all along the railroad line until Empire Station, a mile and a half distant, was reached. The Liberals retreated slowly. Alban's men following them until the latter eventually reached Nataching Station. Here General Alban met and conferred with Captain Perry of the Iowa, who was returning from Colon on an armored train. It is understood that Captain Perry will not allow the railroad to transport troops, consequently General Alban and his men were forced to

Push Ahead on Foot.

It is said here that they thus reached San Pablo, where the Liberals are in force, and that fighting is taking place there. The Liberals are under the command of General Lugo.

Between the stations of Culebra and Empire over 150 killed and wounded men could be seen along the track. The sight was gruesome. There is no proper Red Cross organization and the wounded lack care.

The Liberals at Colon declare the majority of the men killed on the line to be Conservative troops and that the rebels are still in force along the railroad. Three hundred of the Iowa's marines were landed at Panama to protect the property of the railroad and to ensure the continuance of transit across the isthmus.

In government circles in Panama there is still entire confidence in General Alban, and it is believed there that he is able to cope with the present situation and successfully overcome the apparently insurmountable difficulties before him.

It is estimated the Conservative government has 400 men at Panama.

The breastworks on the railroad bridge that leads into Panama, as well as those erected inside the city, have been demolished by the government.

NO BOMBARDMENT OF COLON.

State Department Established a Precedent Last Year at Panama.

Washington, Nov. 26.—It is pretty well understood here that there is to be no bombardment of Colon by either side. While Commander McCrea was given wide discretionary powers and nothing was said to him about stopping the bombardment directly, nevertheless the state department established a precedent in these matters last year when it instructed Mr. Guder to warn insurgents at Panama that they would not be allowed to bombard that port. If the government troops on the Pinzon should persist in their purpose it is said that the commanders of the various warships at Colon would require that ample time be allowed for the withdrawal from the town of all foreigners, and the attacking force, to escape restraint, would be obliged to direct their bombardment with such rare precision as to destroy the insurgent defenses without harming the railroad property, and even without endangering the passage of trains, conditions probably not to be met.

The secretary of the navy has called Captain Perry of the Iowa to assume full command of all the United States naval forces on both sides of the isthmus in order to insure harmonious operations.

Late advices, while showing the situation on the isthmus to be still unsettled, contain the information that free transit by way of the railroad has been re-established. These advices came in a dispatch received by Secretary Long from Captain Perry of the Iowa, who had made a trip across the isthmus from Panama to Colon, from which place he sent a telegram, an extract of which the secretary made public as follows:

"Captain Perry reports that free transit across the isthmus is restored and that he returns to Panama during the afternoon. The captain will leave a guard on each passenger train for the present."

The purpose of the guard presumably is to prevent interruption to the free passage of trains by insurgents congregated along the line of the road.

Did Nothing to Prevent a Duel.

Berlin, Nov. 26.—German newspapers assert that Baron von Reisswitz has been summarily dismissed from the army by order of Emperor William. Baron von Reisswitz was colonel of the regiment in which Lieutenant Blaskowitz, who was recently killed in a duel with a brother officer, had served. The action was taken because Baron von Reisswitz did nothing to prevent the duel in which Blaskowitz was killed.

Dowieite Goes to Prison.

Victoria, B. C., Nov. 26.—Eugene Brooks, elder of Dowie's Christian Catholic Church in Zion, has been found guilty and sentenced to three months without hard labor for aiding and abetting John Rogers, who was recently found guilty of manslaughter for not providing his infant children with medical attendance when they were suffering from diphtheria, from which they died. Brooks will appeal.

Thousands of Dead Perch.

St. Joseph, Mich., Nov. 26.—A report received in this city from Watervliet, Mich., says that thousands of perch have been driven up the Pawpaw river by the recent storms until the mill race at Watervliet, half a mile up the stream, is a mass of dead fish. The fish were so closely packed together on the surface of the water that it was impossible for a rowboat to pass. Men are dipping up the fish in buckets and using them for fertilizer. It is estimated that over 300,000 perch collected in the channel and were unable to get out.

THE YUKON REBELLION

OFFICIALS OF THE TERRITORY
HURRYING TO OTTAWA FOR
ASSISTANCE.

WILL ASK FOR SOLDIERS

Present Force of Mounted Police Not Sufficient—Plot Has Been Brewing for Nearly a Year—Fifteen Hundred Men, Seven-tenths of Whom Are Americans, Are Said to Be in the Conspiracy.

Chicago, Nov. 26.—Overland through Alaska to the sea, by water to Seattle and through the United States on their way to Ottawa, officials of Yukon territory are hurrying to plead at the Canadian capital for help to put down the rebellion threatened by members of the Order of the Midnight Sun. Three of these officials have arrived at Chicago and others are on the way. That serious trouble is imminent in the far Northwest is candidly admitted by the three members of the Yukon department of public works, who were in consultation at the Palmer House with local capitalists who have interests in that country. The men are D. McR. Minard, accountant; J. C. Tache, resident engineer, and P. E. Mercier, assistant engineer.

A determined, united effort, by a band of at least 1,500 men, who have been laying plans for nearly a year, is the plot, as described by the officials, to establish an independent government. Seven-tenths of the men are Americans and they have grievances and the ability to set them forth in convincing style. They believe they have power to secure by force the rights which they declare have been denied them. Governor General Minard of Canada is to be asked to send troops to the scene and at least to double the mounted police. Mr. Minard, the leader of the party of officials, said:

"This trouble may assume an international phase because so many members of the secret military order are Americans and we can't try them for treason. We heard of the plans being laid to overthrow our authority two months ago, but believed it a hare-brained scheme of some adventurers. Of course no such plot could succeed for more than a little while, but the severity of the Arctic winter may delay the sending of strong military forces against the conspirators for six months. The mounted police have always been competent heretofore to take care of all disorderly characters in the territory, but this affair is of too serious a nature to be handled by police. Arms and ammunition, we were told, have been secreted in great quantities. Provisions have been cached at various strategic points this side of White Horse, which is the railway terminus, and beyond. Dawson was to be the capital of the republic. The conspirators depended upon aid from Americans throughout Alaska and circulated copies of grievances in White Horse, Atlin, Dawson, Skagway, Hootalingna and Circle City. Skagway is in American territory."

ROUTED THE INSURGENTS.

Lieutenant Van Schaich of the Fourth Infantry Severely Wounded.

Manila, Nov. 26.—Second Lieutenant Louis J. Van Schaich of the Fourth infantry, while scouting with a few men of that regiment, met 150 insurgents who had attacked and sacked the hamlet of Siaraca, near Cavite. Upon seeing the Filipinos Van Schaich ordered his men to charge them. The command was obeyed, and Van Schaich, being mounted, reached the insurgents 60 yards in advance of his men. He killed three of them with his revolver. An insurgent fired his rifle point blank at Van Schaich at four paces but missed. Lieutenant Van Schaich was then knocked from his horse. He jumped to his feet and engaged in a hand to hand conflict with the enemy, using the butt of his revolver. He sustained two severe wounds, one of which nearly severed his wrist. At this point the lieutenant's men arrived, rescued him and put the insurgents to flight. Van Schaich is in the military hospital at Manila and is doing well. He already has been recommended for a medal of honor for bravery in a previous engagement.

General Hughes, commander of the department of the Visayas, reports that negotiations are about completed for the surrender of the insurgent leader Samson on Bohol Island. This leader Samson will doubtless end the revolt against the American authority in Bohol, as Samson is acknowledged to be the best insurgent leader there.

SAYS THE REPORT IS FALSE.

Triple Alliance Making No Demonstration in South America.

Berlin, Nov. 26.—The foreign office sent for the representative here of the Associated Press and declared the announcement to the effect that the countries party to the triple alliance were making a concerted demonstration in South American waters to be false.

The informant of the correspondent said there had been no discussion between Germany, Austria and Italy regarding common action in this direction.

tion. He admitted that each country was sending warships to South American waters, but said they were acting entirely independent of each other and were merely protecting the property rights and lives of their subjects. It was further explained that Washington was fully informed concerning the intentions of Germany in this regard. The movements of German vessels in South American waters have been fully reported, as well as the vessels destined to go out there. No other ships have been sent to South America.

CRAZED BY HARD CIDER.

Dual Murder Near Marietta, O., Is the Result.

Marietta, O., Nov. 26.—A dual murder under most distressing circumstances took place near here. Three miles north of Beverly, this county, near the little postoffice of Hackney, Robert Wilkin, a prosperous farmer, lived with his wife and child. All day Wilkin drank hard cider. By evening he was intoxicated. His little son came into the house and was seized with a fever. The wife and mother protested at such treatment and Wilkin threatened to kill her if she did not go away and keep quiet. With a rush the mother caught her little one in her arms and started for the home of her father, Jacob Stokes, who lived but a short distance down the road. Wilkin caught up a gun and followed the fleeing woman, shooting after her as she ran. Mr. and Mrs. Stokes heard the noise and came out to the front porch to see what the trouble was. Wilkin saw them, and, pointing the gun at them, fired. The charge struck Mr. Stokes in the side of the head and he staggered to the side of the porch. Mrs. Stokes was shot in the face and her nose and ears were shot off. Stokes managed to stagger through the door, close and lock it. Wilkin then shot the lock off and rushed into the house, screaming like a madman. He was met by an 18-year-old son of Stokes and aimed his gun at the lad with murderous intent. Young Stokes secured a gun from another room and fired the charge into Wilkin's head, killing him instantly. When the man lay dead on the floor young Stokes came to town and told of the tragedy, offering to give himself up. Rescuers went to the house and the injured were cared for. Young Stokes is being applauded for his act and has not been arrested. The elder Mr. Stokes will die before morning and Mrs. Stokes is dangerously ill from the result of shock. The Stokes family is prominent and wealthy.

CATTLE DYING OFF.

Sauk Center Stock Attacked by a New and Strange Disease.

Sauk Center, Minn., Nov. 26.—Farmers are alarmed over a new disease which has developed among cattle in this vicinity and which generally proves fatal. Dr. S. D. Brinchial, veterinary of the state board of health, has just completed an investigation and pronounces the disease to be similar to haemorrhagic septicaemia. It is of a contagious nature and no cure has as yet been found. A half dozen of the finest cows on the Alexander Dryden dairy farm have died. The animals, seemingly well at night, are found dead in the morning. Dr. Brinchial says the disease is of so contagious a nature that even pasture lands where a diseased animal has fed is dangerous for other cattle. He advises the burning of all dead animals.

MUST PERFORM HIS DUTY.

Kaiser Desires Peace but Will Fight if It Is Necessary.

Berlin, Nov. 26.—According to The Lokal Anzeiger, Emperor William, while addressing naval recruits at Kiel, said among other things: "I desire war as little as did my lamented grandfather, who, however, when war was thrust upon him, set off at the head of the army and shared in its hardships and dangers." Then, expressing a hope that the recruits would be true to their oath and show themselves worthy of their fathers in 1870-71, the emperor said: "If I must lead you in war you must not think that the emperor has not ordered well, for soldiers must often perform arduous service; but I have taken my soldier's oath like yourselves and I must perform my duty like yourselves, each in his place."

BULLET IN A BOY'S HEAD.

Eleven-Year-Old St. Paul Lad in Serious Condition.

St. Paul, Nov. 26.—Frank Grant, 11 years of age, living at 1129 Logan street, is at the city hospital suffering from a serious injury received through the accidental discharge of a small rifle. The lad was examining the gun, when it went off, the bullet entering his upper lip, just below the nose, and passing upward into his head. Fears that he will lose the sight of his right eye are entertained and his condition is considered critical.

THE TIMBER PROJECTED.

A Milwaukee Brakeman's Head Is Crushed Like an Egg Shell.

Winona, Minn., Nov. 26.—James G. Emerson, a brakeman on the Milwaukee road, was killed while making a coupling in the Winona yards. A timber on one of the cars projected in a manner unnoticed by him and drove his head against the brake rod on the other car, punching a hole in his head and making him unconscious. Death resulted in an hour.

UNCLE SAM'S POSTOFFICE.

Expenditures Exceed Receipts by Over Three Million Dollars.

Washington, Nov. 26.—Third Assistant Postmaster General Edwin C. Madden, in his annual report, recommends the consolidation of third and fourth class mail matter; an increase of the limit of indemnity for the loss of registered matter from \$10 to \$100, and that postal employees be made liable for the value of registered matter lost through their carelessness. The total postal revenues for the year from all sources were \$111,631,193, being \$3,923,727 less than the expenditures. This is exclusive of the cost of transporting the mails over the subsidized Pacific railroads that have not yet settled their bonded accounts with the government. The total value of stamped paper and stamp books issued during the year was \$104,785,987. The issue of postage stamp books is regarded as a successful experiment.

The amount of second class matter mailed free of postage to actual subscribers within the county of publication constitutes practically 67 per cent of the entire amount mailed. Mr. Madden says it is but a question of time, if the rate of increase of second class matter continues, before it will consume most, if not all, of the revenue derived from other classes of mail matter. While second class matter, combined with its necessary equipment, constitutes approximately two-thirds of the combined weight of all the four classes of mail matter, it furnishes only slightly over 4 per cent of the revenue from all postages. About 50 per cent of this nominal rate, Mr. Madden says, is due to a construction of the statutes which has permitted the admission of a great number of alleged newspapers and periodicals which are merely pretensions. The hope is expressed that the next annual report will show the second class of mail practically free from at least the larger abuses. This reformation, the report says, may make 1-cent postage practicable at no distant date.

WANT AMERICA TO INTERVENE.

Almost Daily Appeals Made to Take Steps to Stop the Boer War.

London, Nov. 26.—Sir Thomas Wemyss Reid, the author and editor, in an article entitled "A Message From America," in the December number of The Nineteenth Century and After, will quote "one of the most distinguished members of the cabinet" as saying:

"I do not think you in England realize the depth of feeling that exists outside your own country on the subject of the South African war, nor the extreme gravity of the situation which that feeling has brought into existence. I am not speaking of American feeling, which is largely on your side, but the more friendly we are to England the more anxious we are to see you extricated from the meshes of the net in which you are now caught. It is terrible to think of the pitifulness of the whole thing and of the loss suffered by universal humanity owing to the effacement of England, for two

years and the consequent absence of her influence from the side of justice and progress."

Sir Thomas further says the member of the cabinet in question told him that almost daily appeals were being made to the government of the United States by representatives of European powers to take some step to end the war. These representations from the ministers of the powers were made unofficially, although the United States government well knew their respective governments were backing them therein.

KILLED THE OUTLAW.

Messenger of a Mining Company Saves the Payroll.

Nogales, A. T., Nov. 26.—James Alvord, the outlaw who assisted in the Cochise and Fairbanks robbery on the Southern Pacific, has been killed while trying to hold up a messenger for the payroll of the Sonora Mining company at Tubutama, Sonora. Two men, one a Mexican and the other an American, attempted to stop T. L. Van Dayer, carrier of the money for the company. Van Dayer recognized Alvord and shot him. During the fusillade Van Dayer says two bullets took effect, one in the head and one in the breast. Van Dayer was shot twice, but escaped with the money.

FRENCH INDEMNITY LOAN.

Chamber of Deputies Has Placed It at 265,000,000 Francs.

Paris, Nov. 26.—The chamber of deputies, by a vote of 295 to 249, has adopted the sum of 265,000,000 francs for the Chinese indemnity loan, rejecting the smaller sums proposed by the anti-Clericals. The premier, M. Waldeck-Rousseau, in the course of the discussion, declared the government would make no distinction between those who were entitled to indemnities, but would pursue in the far East France's traditional policy and fulfill all the duties of her protectorate, just as she claimed all its rights.

MURDERED A GERMAN.

President Castro Orders a Prisoner's Trial and Liberation.

Trinidad, Nov. 26.—During the presence last week of the German cruiser Falke and the German training ship Stein at La Guayra, President Castro ordered and obtained the trial and liberation of a Venezuelan who last April murdered a German trader in Caracas. The German legation here has urged the punishment of this murder and is now awaiting instructions from Berlin in the matter.

The St. Cloud Traveling Man Decides to Enter This Plea in District Court This Morning.

When the district court convened at St. Cloud this morning L. R. Howell, the young man who was indicted by the grand jury on the charge of embezzling money from the St. Cloud Grocery company, appeared in court and entered a plea of guilty. Sentence was not passed.

The action of Mr. Howell at the time caused some little surprise as it was thought that he stood a very good show of being acquitted. Only last night several of the traveling men of that place raised quite a sum of money to defray the expense of putting up a defense.

THINKS BROTHER IS THE MAN DROWNED.

Man Drowned Near Park Rapids Thought To Be Brother of William Rogers.

ANSWERS DESCRIPTION EXACTLY

Authorities At Park Rapids Also of Opinion That Conclusions Are Right.

Yesterday THE DAILY DISPATCH contained a small item referring to the drowning of James Rogers at Little Man Trap lake, not far from Park Rapids, and last night William Rogers, who was employed on the circulation department of THE DISPATCH a few months ago, but who recently took a position at Edstrom's laundry, noticed the little reference to the affair and at once commenced an investigation, he being of the opinion that the Rogers referred to was none other than his own brother.

When he called at THE DISPATCH office and the account of the drowning and description of the man who had drowned was read his conclusions began to be realized and Mr. Rogers more firmly than before believed that the man who was drowned was none other than his brother. When the realization dawned upon him, the information coming in such an indirect manner, Mr. Rogers was noticeably affected. The account of the drowning in the Hubbard County Enterprise was as follows:

"Nich Eischens brought the news in late last evening that a man had been drowned at Little Man Trap Lake a few hours before.

"It seems that James Rogers at the close of the day's work, about 5:30 p. m., attempted to cross the lake on his way back to camp No. 5 of the H. C. Akeley Lumber Co. It was growing dark at the time. When some ways across parties on the opposite bank noticed Rogers go down through the ice. Before assistance could reach him he was drowned. Up to the time Mr. Eischens started for town the body had not been found.

"Inquiry made at the office of the Akeley Lumber Co. threw very little light on who the man was. Mr. Smedley said that he should judge him to be about 40 years of age and that he came here from Minneapolis. Efforts have been made by wire to reach some of his folks—if he has any—but they have not been successful. He was unmarried as far as known."

Mr Rogers at once called up Park Rapids by telephone and as he was quite well acquainted there he thought that perhaps those who knew that James Rogers was a brother of his would recognize the features of the dead man in this connection. They of course did not realize this fact until Mr. Rogers called them up. Then it was that a gentleman, who had been introduced by William Rogers to his brother James, realized that the man might possibly be Mr. Rogers' brother. The description, the age and the fact that the man was unmarried are almost conclusive evidences that he was none other than the James Rogers referred to. James

Rogers, brother of William Rogers of this city, had gone up in that country sometime ago to work on the new road being built by Walker & Akeley. He is a carpenter by trade and had been working there for some little time. Another reason which made Mr. Rogers suspicious was the fact that his brother had expected to come down to Brainerd recently, the last of the week, but did not show up.

There is a gentleman in the city today who saw the man after he was taken from the water Friday and he knew both the dead man and his brother in this city. He is positive that the conclusions were rightly deciphered. Mr. Rogers has telephoned the authorities at Park Rapids and he expects to learn more of the details before night either by letter or wire. It is an extremely sad case and Mr. Rogers has the sympathy of his many friends in this city.

Going out of the clothing business and selling the stock at actual cost price. Come and examine prices. HENRY I. COHEN.

ACTIONS AGAINST T. R. FOLEY.

In the United States Court at Duluth for Alleged Unlawful Appropriation of Pine Timber.

The United States has begun two new actions against the T. R. Foley company of Aitkin, Minn., for alleged unlawful appropriation of pine timber cut on government lands, making four in all, says the Duluth Herald.

The third and fourth complaints were filed in United States circuit court by Fredrick N. Dickson, assistant district United States attorney.

The third complaint alleges that between Jan. 1 and April 1, 1889, the defendant company did unlawfully cut and remove from government lands in section 32, 60-24, Itasca county, 423 white pine trees containing 200,000 feet. The government alleges that the logs were floated down the Mississippi river to Guttenberg, Iowa, where they were converted into lumber and disposed of by the defendant. The government asks judgment for \$4625 and costs of the suit. This is basing the cost of the white pine at \$15 per thousand feet.

The fourth complaint alleges that the defendant between Sept. 1, 1898 and Jan. 1 1900, cut and removed from government lands in sections 19, 26 and 33, 60-22, white pine trees amounting to 340, containing 271, 078 feet of lumber, and 131 Norway pine trees containing 57,175 feet. It is alleged that the logs were taken to the booms on the Mississippi and Rum rivers and taken to Guttenberg, Iowa, where they were made into lumber for the benefit of the defendant. In this complaint the government asks judgment for \$4667.85.

FAVORS FOREST PRESERVATION

Annual Report of The Secretary of the Interior Made Public Yesterday

INDIAN EDUCATION DISCUSSED

Legislation Urged to Correct the Abuses of Practice of Land Selections.

The annual report of Secretary Hitchcock of the interior department was made public yesterday. It indorses the conclusions submitted by Commissioner of Indian Affairs Jones regarding the present Indian education system. The secretary says:

"The management of the Indian service in the field and in the schools while satisfactory under existing conditions, is not deemed to be the best for the welfare of the Indians, and different methods will hereafter be adopted. This policy contemplates requiring the working by Indian allottees able to do so of a fair portion of lands allotted to them and the contributing by their industry to their own support of all not entirely disqualified by actual disability, physical or otherwise, and discontinuance of the issue of rations to those able to support themselves and the extension to the latter of every possible aid for their well being and encouragement, the inauguration of industrial training in all school where not now established, so that such Indians of both sexes may be taught the trades or industries adapted to their circumstances."

The report says that the act of June 3, 1887, known as the timber and stone act, if not repealed or radically amended, will result ultimately in the complete destruction of the timber on the unappropriated and unreserved public lands.

"The time has arrived, according to the secretary, when reservoirs must be built and managed as a part of a national system of forest and water conservation. They cannot be maintained, however, without a thorough system of forest protection. The introduction of practical forestry on the forest reserves has now begun. The general policy as announced in an outline memorandum to the commissioner of the land office, is that additional forest reserves, with boundaries drawn to liberate the smallest amount of script, should be created during this winter, the good will of the residents in or near the reserves should be gained, and the resources of the reservoirs should be made available for the conservative use of the people. Systematic investigation designed to make them accessible and useful should be undertaken and each forest reserve and part thereof should be dealt with on its own merits.

Legislation to correct the abuses that have grown up in the practice of land selections of land is urged. The report highly endorses the work and recommendation of Commissioner of Pensions Evans, and says that the veterans have no more sincere friend than their comrade, the commissioner, who himself served as an enlisted man in the armies of the Union, and he but maintains and defends the honor of their patriotic services when, refusing to ignore both the spirit and letter of the law, he declines to permit the imposter, whether claimant or agent, to share in the bounty provided for the veteran and those dependent upon him.

Fee's Anniversary.

Charles S. Fee, general passenger agent of the Northern Pacific, has completed his twenty-fourth year in that capacity, and is receiving the congratulations of his friends. He has been with the company for twenty-six years. Older residents of the city will remember how diminutive the Northern Pacific was a quarter of a century ago, in comparison to its present size. One of Mr. Fee's first official acts was to place in commission two sleeping cars. The company now operates 66 sleepers and 66 tourist cars, or practically 132 sleepers in its daily service. The two porters which Mr. Fee first employed on the pioneer sleepers are still with the company. Twenty-six years ago the volume of passenger business was ridiculously small in comparison to that of the year closed, July 1. It is expected that the earnings for 1892 will be two million more than those of 1900.

NEW DISEASE AMONG CATTLE

Has Developed Which it is Claimed Is Contagious and for Which No Cure Has Been Found.

Farmers are alarmed over a new disease which has developed among cattle near Sauk Centre, and which generally proves fatal. Dr. S. D. Brinchial, veterinary of the state board of health, has just completed an investigation and pronounces the disease to be similar to haemorrhagic septicemia. It is of a contagious nature and no cure has as yet been found. A half-dozen of the finest cows on the Alexander Dryden dairy farm have died. The animals, seemingly well at night, are found dead in the morning. Dr. Brinchial says the disease is of so contagious a nature that even pasture lands where a diseased animal has fed is dangerous for other cattle. He advises the burning of all dead animals.

The disease, or something similar to it, was found in Tennessee in 1898, and no other cases were reported until August, 1900, when an outbreak occurred at Newport, near St. Paul. Last year from eight different sections of Minnesota similar cases were reported.

THINKS BROTHER IS THE MAN DROWNED.

Man Drowned Near Park Rapids
Thought To Be Brother of
William Rogers.

ANSWERS DESCRIPTION EXACTLY

Authorities At Park Rapids Also
of Opinion That Conclu-
sions Are Right.

Yesterday THE DAILY DISPATCH contained a small item referring to the drowning of James Rogers at Little Man Trap lake, not far from Park Rapids, and last night William Rogers, who was employed on the circulation department of THE DISPATCH a few months ago, but who recently took a position at Edstrom's laundry, noticed the little reference to the affair and at once commenced an investigation, he being of the opinion that the Rogers referred to was none other than his own brother.

When he called at THE DISPATCH office and the account of the drowning and description of the man who had drowned was read his conclusions began to be realized and Mr. Rogers more firmly than before believed that the man who was drowned was none other than his brother. When the realization dawned upon him, the information coming in such an indirect manner, Mr. Rogers was noticeably affected. The account of the drowning in the Hubbard County Enterprise was as follows:

"Nich Eischens brought the news in late last evening that a man had been drowned at Little Man Trap Lake a few hours before.

"It seems that James Rogers at the close of the days work, about 5:30 p. m., attempted to cross the lake on his way back to camp No. 5 of the H. C. Akeley Lumber Co. It was growing dark at the time. When some ways across parties on the opposite bank noticed Rogers go down through the ice. Before assistance could reach him he was drowned. Up to the time Mr. Eischens started for town the body had not been found.

"Inquiry made at the office of the Akeley Lumber Co. threw very little light on who the man was. Mr. Smedley said that he should judge him to be about 40 years of age and that he came here from Minneapolis. Efforts have been made by wire to reach some of his folks—if he has any—but they have not been successful. He was unmarried as far as known."

Mr Rogers at once called up Park Rapids by telephone and as he was quite well acquainted there he thought that perhaps those who knew that James Rogers was a brother of his would recognize the features of the dead man in this connection. They of course did not realize this fact until Mr. Rogers called them up. Then it was that a gentleman, who had been introduced by William Rogers to his brother James, realized that the man might possibly be Mr. Rogers' brother. The description, the age and the fact that the man was unmarried are almost conclusive evidences that he was none other than the James Rogers referred to. James

Rogers, brother of William Rogers of this city, had gone up in that country sometime ago to work on the new road being built by Walker & Akeley. He is a carpenter by trade and had been working there for some little time. Another reason which made Mr. Rogers suspicious was the fact that his brother had expected to come down to Brainerd recently, the last of the week, but did not show up.

There is a gentleman in the city today who saw the man after he was taken from the water Friday and he knew both the dead man and his brother in this city. He is positive that the conclusions were rightly deciphered. Mr. Rogers has telephoned the authorities at Park Rapids and he expects to learn more of the details before night either by letter or wire. It is an extremely sad case and Mr. Rogers has the sympathy of his many friends in this city.

ACTIONS AGAINST T. R. FOLEY.

In the United States Court at Duluth for
Alleged Unlawful Appropriation
of Pine Timber.

The United States has begun two new actions against the T. R. Foley company of Aitkin, Minn., for alleged unlawful appropriation of pine timber cut on government lands, making four in all, says the Duluth Herald.

The third and fourth complaints were filed in United States circuit court by Fredrick N. Dickson, assistant district United States attorney.

The third complaint alleges that between Jan. 1 and April 1, 1889, the defendant company did unlawfully cut and remove from government lands in section 32, 60-24, Itasca county, 423 white pine trees containing 200,000 feet. The government alleges that the logs were floated down the Mississippi river to Guttenberg, Iowa, where they were converted into lumber and disposed of by the defendant. The government asks judgment for \$4625 and costs of the suit. This is basing the cost of the white pine at \$15 per thousand feet.

The fourth complaint alleges that the defendant between Sept. 1, 1898 and Jan. 1 1900, cut and removed from government lands in sections 19, 26 and 33, 60-22, white pine trees amounting to 340, containing 271, 078 feet of lumber, and 131 Norway pine trees containing 57,175 feet. It is alleged that the logs were taken to the booms on the Mississippi and Rum rivers and taken to Guttenberg, Iowa, where they were made into lumber for the benefit of the defendant. In this complaint the government asks judgment for \$4667.85.

Annual Report of The Secretary
of the Interior Made Public
Yesterday

INDIAN EDUCATION DISCUSSED

Legislation Urged to Correct the
Abuses of Practice of Land
Selections.

The annual report of Secretary Hitchcock of the interior department was made public yesterday. It indorses the conclusions submitted by Commissioner of Indian Affairs Jones regarding the present Indian education system. The secretary says:

"The management of the Indian service in the field and in the schools while satisfactory under existing conditions, is not deemed to be the best for the welfare of the Indians, and different methods will hereafter be adopted. This policy contemplates requiring the working by Indian allottees able to do so of a fair portion of lands allotted to them and the contributing by their industry to their own support of all not entirely disqualified by actual disability, physical or otherwise, and discontinuance of the issue of rations to those able to support themselves and the extension to the latter of every possible aid for their well being and encouragement, the inauguration of industrial training in all school where not now established, so that such Indians of both sexes may be taught the trades or industries adapted to their circumstances."

The report says that the act of June 3, 1887, known as the timber and stone act, if not repealed or radically amended, will result ultimately in the complete destruction of the timber on the unappropriated and unreserved public lands.

"The time has arrived, according to the secretary, when reservoirs must be built and managed as a part of a national system of forest and water conservation. They cannot be maintained, however, without a thorough system of forest protection. The introduction of practical forestry on the forest reserves has now begun. The general policy as announced in an outline memorandum to the commissioner of the land office, is that additional forest reserves, with boundaries drawn to liberate the smallest amount of script, should be created during this winter, the good will of the residents in or near the reserves should be gained, and the resources of the reservoirs should be made available for the conservative use of the people. Systematic investigation designed to make them accessible and useful should be undertaken and each forest reserve and part thereof should be dealt with on its own merits.

Legislation to correct the abuses that have grown up in the practice of land selections of land is urged. The report highly endorses the work and recommendation of Commissioner of Pensions Evans, and says that the veterans have no more sincere friend than their comrade, the commissioner, who himself served as an enlisted man in the armies of the Union, and he but maintains and defends the honor of their patriotic services when, refusing to ignore both the spirit and letter of the law, he declines to permit the imposter, whether claimant or agent, to share in the bounty provided for the veteran and those dependent upon him.

BIG STRIKE IS ORDERED

SWITCHMEN ON SEVEN PITTSBURG RAILROADS WILL QUIT WORK.

DEMAND THE CHICAGO RATE

In the Present Congested Condition of Traffic the Tie-Up Will Be Disastrous to the Companies Involved. Expected That From Seven Hundred to a Thousand Men Will Obey the Order.

Pittsburg, Nov. 26.—The switchmen on seven railroads of Pittsburg have decided to strike at 6 a. m. At a meeting of the Brotherhood of Switchmen, which was attended by about 600 members, this action was decided upon and the result of this movement can only be conjectured. The demand of the men is that the Chicago rate be paid here. The rate is 27 cents an hour for day conductors and 29 cents an hour for night, helpers 25 cents for day and 27 cents for night. The Pittsburg rate at present is 25 cents for day and 26 cents for night conductors, 19 cents day and 20 cents night for helpers. In the present congested condition of the railroads the strike, if it is carried out, will be disastrous to the extreme to the companies involved.

In anticipation of possible trouble it is learned that the Pennsylvania railroad has made application to the city police department for 60 officers to be on hand in the union depot yards in the morning, and in the Baltimore and Ohio yards fully 100 Pinkertons are on duty.

The claim made at the switchmen's meeting was that 700 to 1,000 men would obey the strike order in the morning. The estimate was that in the union depot yards of the Pennsylvania railroad 138 men would go out; that the yards at Pittsburg and Wall would go out in the same proportion; that the Baltimore and Ohio and the Pittsburg and Lake Erie yards would go out solidly, and that the Monongahela, Pittsburg, Virginia and Charleston, the Shoenberger terminal and the Pittsburg and Western would be practically without men. It was also claimed that the Fort Wayne and Panhandle men would lend a helping hand.

ENDORSES VAN SANT'S ACTION.

Governor Hunt May Be Able to Give Only His Moral Support.

Boise, Ida., Nov. 26.—Governor Hunt, who has just returned from a trip to Utah, was asked what action he had taken with respect to the request of Governor Van Sant of Minnesota for the governors of the West to join him in the fight against the Northwestern railroad combination. Governor Hunt said:

"I have not yet received Governor Van Sant's formal request. I cannot say what action I will take until I have received and considered the Minnesota governor's communication. I heartily endorse his action in starting the fight against the railroad corporation, but the question is whether or not, as governor of Idaho, I can give it any more than moral support. I do not believe we have a law similar to the one I understand Minnesota has to prevent the combination of parallel lines in the state. I cannot say at this time what action, if any, I may take."

Montagu White Condemns the African Reconcentrado Camps.

Chicago, Nov. 26.—England's action in making prisoners of Boer women and children and keeping them confined in the reconcentrado camps in Africa was termed barbarous and brutal by speakers at a reception at the Masonic Temple here to Montagu White, the late consul general in London for the South African Republic. Prominent Chicago people who are in sympathy with the struggling Boers in their fight for freedom were present. Mr. White bitterly criticized the English for their refusal to move the Boer women and children to the coast. "The refusal of Great Britain to move the Boer women and children to the coast is a gigantic crime," he said. "This condition of affairs in South Africa today shows that the war is not being conducted according to the rules of modern warfare."

TROUBLE IS AVERTED.

Chile and Argentine Have Settled Their Boundary Dispute.

Washington, Nov. 26.—The threatened trouble over the boundary line between Chile and the Argentine Republic has been averted for the present at least. Signor Infante, the charge of the Chilean legation here, has conveyed to this government an assurance that the two principals to the boundary question have just succeeded in reaching an amicable and satisfactory understanding. This statement has given great satisfaction, for it is believed here that hostilities between Chile and Argentina would without doubt involve three-fourths of South America before they terminated.

NEED OUTSIDE ASSISTANCE.

Half a Million Chinese Are in Danger of Starvation.

Washington, Nov. 26.—John Goodnow, consul general at Shanghai, reports to the state department that there are over 500,000 people in the Yangtze valley who will starve this winter unless they get help from outside. A committee of foreigners and Chinese has been formed in Shanghai to relieve the condition of these people and all foreigners in China are subscribing liberally. Contributions may be made through the British consul general at Shanghai, Mr. P. L. Warren, who is chairman of the relief committee.

Sir Thomas Lipton Willing to Try for the Cup Once More.

London, Nov. 26.—"Should no one else challenge I am willing seriously to consider making another attempt to lift the cup."

This announcement was given out by Sir Thomas Lipton at the banquet given at the Hotel Cecil in his honor and which was attended by more than 400 guests.

"It would never do," added Sir Thomas, "to give up when only a pulse beat came between us and victory."

The reception to the challenger for the America's cup was marked with the greatest enthusiasm and all classes were represented at the banquet. Lord Tweedmouth acted as chairman, and, proposing the health of President Roosevelt, he referred to his versatility as a politician, statesman, sportsman and writer. Roosevelt's name was greeted with tremendous applause, although only a few Americans were present. Sir Thomas' speech was the feature of the evening. He maintained the excellence of the Shamrock II and that a wee bit of luck would have turned the tables.

GIFT FROM JOE WHEELER.

First American Flag to Float Over Santiago Presented to Alabama.

Montgomery, Ala., Nov. 26.—General Joseph Wheeler has presented to the state of Alabama the first American flag which floated over Santiago. The flag was sent to Governor Jelke. It will be run up on the main mast of the Spanish war vessel Don Juan de Austria, which mast was presented to Alabama through the efforts of Captain R. P. Hobson. The main mast, which has already reached Montgomery, will be raised in the grounds of the state capitol and there will be appropriate ceremonies.

Romance of the Corinthian Column.

In the winter a young girl had died in Corinth. Some time afterward her maid gathered together various trinkets and playthings which the girl had loved and brought them to the girl's grave. There she placed them in a basket near the monument and put a large square tile upon the basket to prevent the wind from overturning it. It happened that under the basket was a root of an acanthus plant. When spring came, the acanthus sprouted, but its shoots were not able to pierce the basket, and accordingly they grew around it, having the basket in their midst. Such of the long leaves as grew up against the four protruding corners of the tile on the top of the basket curled round under these corners and formed pretty volutes.

Kallimachos, the sculptor, walking that way one day, saw this and immediately conceived the notion that the form of the basket with the plaque on top of it and surrounded by the leaves and stalks of acanthus would be a comely heading for columns in architecture. He from this idea formed the beautiful Corinthian style of capital. Such, at least, is the story as the architect Vitruvius told it 1,900 years ago.

Too Much Apathy.

Couldock's company was once barnstorming through Virginia. It was at Petersburg, and the play was "The Chimney Corner." All through the audience sat in distressing silence, neither laughing nor shedding a tear, although "The Chimney Corner" abounds with humor and pathos and the company then producing it was of great merit for those times. Couldock appeared to pay no attention to the apathy of his audience until just at the close of the performance. The concluding lines of the play are somewhat to this effect: "You, John, are happy, and so are you, Ellen; so am I, and so are we all. Let us hope that our friends the public share our happiness."

But, to the surprise of everybody, Couldock fell into a towering passion when he reached these lines, and in thundering tones he said, "You, John, are happy, and so are you, Ellen; so am I, and so are we all except the fools that have been sitting like stoutheads bottles in front of the footlights tonight!"

A Golf Story.

A well known Scotch "meenister" took up golf and despite great practice could not succeed in passing the tyro stage. His simple exclamations of "Tut, tut!" "Oh, dear, now!" "Well, well!" and the like were plain evidences of a perturbed spirit.

One day, when the perspiration flowed freely from his lofty brow and his honest countenance shone with a luster and radiance which, alas, were not due to calmness of soul, but rather the heat of the sun and his laborious efforts to move the obstinate gutta serena from its station on the tee, he was tempted to indulge in strong language. "Dear, dear, but I'll have to gie it up! I'll have to gie it up!" he said at last, with a despairing look at the ball.

"Give up the game, Mr. D.?" exclaimed his friend, who had been a witness of his attempts.

"Na, na—the meenistry!" answered the other, with a sigh.

The Sacred Bone.

The bone box, or the "resurrection bone," is at the lower extremity of the spinal column. The Jewish rabbis taught that it was incorruptible, and from it, as from a seed, the human body would spring at the resurrection. There is a Jewish tradition that the Emperor Hadrian questioned a rabbi as to the existence of this bone and was convinced by the production of one by the Jewish teacher. Various attempts were made to destroy it. It was cast into a furnace and came forth unconsumed; it was steeped in boiling water, but remained unsoftened; it was smitten with a hammer, and the hammer was broken. Some trace of the former reverence for the bone is found in the modern name.

Crabs and Lobsters.

There are many curious points about crabs and lobsters. Every one of either genus is provided with a big claw for crushing and a small claw adapted by its shape for cutting as scissors do. With these two claws they tear the food they capture into fragments and feed themselves literally from "hand to mouth." But there is every reason to suppose that the claws are intended quite as much for fighting as for eating purposes, inasmuch as such powerful hands are not needed for devouring the soft food they prefer.

Power of Expression.

Our language has a wonderful power of expression. On one occasion, we are told, a doctor of divinity rang the changes on "He that hath ears to hear let him hear." "He that is accessible to auricular vibration," said the doctor, "let him not close the gates of his tympana."

Then, again, we have that old fashioned saying "The more the merrier" delightfully translated in this way: "Multitudinous assemblages are the most provocative of cabinatory hilarity."

A Personal Impression.

"Did Noah only take two o' each kind o' animal in de ark wif 'im?" said Mr. Erastus Pinkley.

"Dat's what I un'stan's," said Miss Miami Brown.

"Well, course, Noah was runnin' de boat, but I would er' spected dat he'd o' laid in an extra supply o' pork an' chickens."—Washington Star.

BIG STRIKE IS ORDERED

SWITCHMEN ON SEVEN PITTSBURG RAILROADS WILL QUIT WORK.

DEMAND THE CHICAGO RATE

In the Present Congested Condition of Traffic the Tie-Up Will Be Disastrous to the Companies Involved. Expected That From Seven Hundred to a Thousand Men Will Obey the Order.

Pittsburg, Nov. 26.—The switchmen on seven railroads of Pittsburg have decided to strike at 6 a. m. At a meeting of the Brotherhood of Switchmen, which was attended by about 600 members, this action was decided upon and the result of this movement can only be conjectured. The demand of the men is that the Chicago rate be paid here. The rate is 27 cents an hour for day conductors and 29 cents an hour for night, helpers 25 cents for day and 27 cents for night. The Pittsburg rate at present is 25 cents for day and 26 cents for night conductors, 19 cents day and 20 cents night for helpers. In the present congested condition of the railroads the strike, if it is carried out, will be disastrous in the extreme to the companies involved.

In anticipation of possible trouble it is learned that the Pennsylvania railroad has made application to the city police department for 60 officers to be on hand in the union depot yards in the morning, and in the Baltimore and Ohio yards fully 100 Pinkertons are on duty.

The claim made at the switchmen's meeting was that 700 to 1,000 men would obey the strike order in the morning. The estimate was that in the union depot yards of the Pennsylvania railroad 138 men would go out; that the yards at Pittsburg and Wall would go out in the same proportion; that the Baltimore and Ohio and the Pittsburg and Lake Erie yards would go out solidly, and that the Monongahela, Pittsburg, Virginia and Charleston, the Shoenberger terminal and the Pittsburg and Western would be practically without men. It was also claimed that the Fort Wayne and Panhandle men would lend a helping hand.

ENDORSES VAN SANT'S ACTION.

Governor Hunt May Be Able to Give Only His Moral Support.

Boise, Ida., Nov. 26.—Governor Hunt, who has just returned from a trip to Utah, was asked what action he had taken with respect to the request of Governor Van Sant of Minnesota for the governors of the West to join him in the fight against the Northwestern railroad combination. Governor Hunt said:

"I have not yet received Governor Van Sant's formal request. I cannot say what action I will take until I have received and considered the Minnesota governor's communication. I heartily endorse his action in starting the fight against the railroad corporation, but the question is whether or not, as governor of Idaho, I can give it any more than moral support. I do not believe we have a law similar to the one I understand Minnesota has to prevent the combination of parallel lines in the state. I cannot say at this time what action, if any, I may take."

Couldock appeared to pay no attention to the apathy of his audience until just at the close of the performance. The concluding lines of the play are somewhat to this effect: "You, John, are happy, and so are you, Ellen; so am I, and so are we all. Let us hope that our friends the public share our happiness."

But, to the surprise of everybody, Couldock fell into a towering passion when he reached these lines, and in thundering tones he said, "You, John, are happy, and so are you, Ellen; so am I, and so are we all except the fools that have been sitting like stoutheads in front of the footlights tonight!"

A Golf Story.

A well known Scotch "meenister" took up golf and despite great practice could not succeed in passing the tyro stage. His simple exclamations of "Tut, tut!" "Oh, dear, now!" "Well, well!" and the like were plain evidences of a perturbed spirit.

One day, when the perspiration flowed freely from his lofty brow and his honest countenance shone with a luster and radiance which, alas, were not due to calmness of soul, but rather the heat of the sun and his laborious efforts to move the obstinate gutta percha from its station on the tee, he was tempted to indulge in strong language. "Dear, dear, but I'll have to gie it up! I'll have to gie it up!" he said at last, with a despairing look at the ball.

"Give up the game, Mr. D.," exclaimed his friend, who had been a witness of his attempts.

"Na, na—the meenistry!" answered the other, with a sigh.

The Sacred Bone.

The bone lux, or the "resurrection bone," is at the lower extremity of the spinal column. The Jewish rabbis taught that it was incorruptible, and from it, as from a seed, the human body would spring at the resurrection. There is a Jewish tradition that the Emperor Hadrian questioned a rabbi as to the existence of this bone and was convinced by the production of one by the Jewish teacher. Various attempts were made to destroy it. It was cast into a furnace and came forth unscathed; it was steeped in boiling water, but remained unsoftened; it was smitten with a hammer, and the hammer was broken. Some trace of the former reverence for the bone is found in the modern name.

Crabs and Lobsters.

There are many curious points about crabs and lobsters. Every one of either genus is provided with a big claw for crushing and a small claw adapted by its shape for cutting as scissors do. With these two claws they tear the food they capture into fragments and feed themselves literally from "hand to mouth." But there is every reason to suppose that the claws are intended quite as much for fighting as for eating purposes, inasmuch as such powerful hands are not needed for devouring the soft food they prefer.

Power of Expression.

Our language has a wonderful power of expression. On one occasion, we are told, a doctor of divinity rang the changes on "He that hath ears to hear let him hear." "He that is accessible to auricular vibration," said the doctor, "let him not close the gates of his tympana."

Then, again, we have that old fashioned saying "The more the merrier" delightfully translated in this way: "Multitudinous assemblages are the most provocative of cabinatory hilarity."

A Personal Impression.

"Did Noah only take two o' each kind o' animal in de ark wif 'im?" said Mr. Erastus Pinkley.

"Dat's what I un'stan's," said Miss Miami Brown.

"Well, course, Noah was runnin' de boat, but I would er 'spected dat he'd o' laid in an extra supply o' pork an' chickens."—Washington Star.
